SUMMARY

Experienced in managing multiple projects, working collaboratively with team members, and applying problem-solving skills to achieve effective outcomes. Committed to contributing to organizational success through quality work, collaboration, and continuous professional growth.

WORK EXPERIENCE

Tigernethost OPC - Intern & Trainee **February 2025 - May 2025**

I have developed foundational skills in web development as an intern, working with programming languages such as Nuxt.js, Laravel, and CSS frameworks including Tailwind CSS and Bootstrap. I also have hands-on experience integrating APIs into web applications. These skills have strengthened my ability to build and maintain functional, user-friendly web systems.

Tigernethost OPC - Web Developer & AI Automation Specialist **June 2025 - December 2025**

After completing my internship, I transitioned into a part-time role focused on Web development, where I built and maintained website features to improve user experience and ensure smooth performance. Alongside this, I used n8n to automate workflows and support the development of an AI-powered chatbot for the company's Facebook page, helping deliver fast and responsive interactions for users.

Shopify Developer (Freelance) **January 2026 - April 2026**

Worked on client-based projects building and customizing Shopify storefront themes, focusing on responsive design, performance, and smooth user experience. Pursued this role to strengthen my front-end development skills in a real-world setting, collaborate directly with clients, and deliver tailored e-commerce solutions based on business needs.

EDUCATION
